ANNOUNCES

SAVE AS MUCH AS **40%**
ON YOUR ROOFING NEEDS!

“SAVES TIME AND MONEY
WHILE MAINTAINING
DURABILITY AND QUALITY.”

TRADITIONAL ROOFING SYSTEM

- Uses trusses which are CUMBERSOME to deploy and EXPENSIVE
- Trusses are an EYESORE
- Takes weeks to install
- The design is inefficient

JACINTOCOLOR NEW TECHNOLOGY DOES AWAY WITH MESSY TRUSSES

• SAVE ON LABOR AND TIME

Trusses of a typical house will cost P20,000 a week to build and install on labor alone or a total of P60,000.

• SAVE ON MATERIALS

Wood or steel for trusses NO LONGER NEEDED

JACINTO PANELIZED ROOFING "NEW TECHNOLOGY"

Our roofing system panels are pre-fabricated in our Jacinto Steel Plant and are designed to replace the whole traditional system doing away with trusses.

Standard Panel size of 6m, as required in most homes and can be adjusted longer or shorter to fit your project/home.

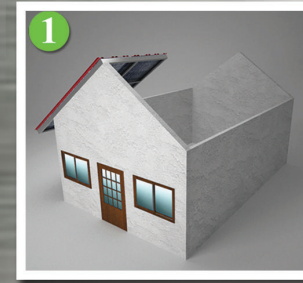

BENEFITS:

- **CHEAPER**
Saves as much as 40%*
- **QUICKER**
Install your entire roofing system as fast as a few hours**
- **REUSABLE**
Jacintocolor's patented panelized technology allows for easy assembly and disassembly
- **AVOID LEAKS**
Breakthrough design allows for easy installation which minimises the risk of leaks
- **PROVIDES ADDITIONAL USABLE SPACE**
Does away with unnecessary materials like trusses and provides additional usable spaces that can be turned into attics and lofts
- **STRUCTURALLY SOUND**
Able to withstand winds of up to 250 kph

*On average, panelized roofing saves 20%-40% from traditional roofing designs

**Can be as quick as a few hours to a few days depending on house size
